

Airport baggage wagon truck

Immagini Prodotto

Descrizione

Wagon truck made of welded gauge high thickness steel tubes designed to grant a maximum resistance

V shaped loading platform, for an easy water draining.

Platform size: mm 2000 x 1300 approximately

Maximum height mm 500

Surface in plate (on request non slipping cequer plate).

High thickness tubular handle with a fifth wheel steering on roller bearing

Parking brake is engaged when the drawbar handle is put in a vertical position. When put in brake position the handle is locked and cannot fall accidentally.

Approved ring drawbar with hole \varnothing mm 40

Rear hook for towing

4 non marking elastic rubber wheels \varnothing 400 x 80 featuring: chemical resistance to acids, oils, solvents, puncture proof, low resistance to rolling.

Rounded edges

Loading surface height mm 500

Anticorrosive finishing with hot galvanized zinc plating (dry kiln powder painting on request).

Capacity kg 1500

Flexible high resistance PVS tarpaulin, with side fissure to check the load. A spring Rewind System for the automatic rewind of the tarpaulin grants an easy accessibility to the loading surface and quick open and close operations.

Overall height mm 2.000 approximately

Informazioni Aggiuntive

Cod. Prod.	ART059AERO
Supplied	Fully assembled
Weight kg	150.0000
Load Capacity Kg	1500
Type of Wheel:	Rubber
Colour	Blu RAL5015
Manufacturer	Carmeccanica
Made in	Italia
Warranty duration	5 Years
Conformity	CE
Lead Time	Esaurito
