

# Battery operated power lift stacker

## Immagini Prodotto

## Descrizione

---

PMP2EP , as a handy and functional stacker, allows to lift loads up to 200 kg to a height of 1600 mm. When the operator push on the lift button, an 800 W motor pumps the oil in the cylinder, rising the forks and their load. By pushing on the lowering button, the electrovalve is opened, the oil flows back into the tank and the forks lower.
